ABOUT US

4-S Enterprises is a diversified international group of companies operating in the fields of Agriculture, Engineering, Energy, Commodities, Real Estate development, Marketing, and Finance. Companies operating under the 4-S Enterprises Group umbrella are active in sectors ranging from construction, oil and refined products, green energy generation and storage, water purification, management and marketing services, to healthcare and project finance.

Each of our companies is a recognized leader in its field and delivers specialized, highly technical services. 4-S ENTERPRISES' emphasis on strong management and measured growth gives us the competitive advantage we need to succeed even under volatile market conditions. 4-S ENTERPRISES companies each have their own management team, financial structure, and growth path with focus on value creation. The Group is unified and supported by the common values of: Professionalism, Entrepreneurship, Integrity, Commitment, Achievement, Innovation, Teamwork and Accountability.

OUR MISSION

Our mission is to design and implement integrated and sustainable solutions that take into account such factors as environmental impact and regulatory compliance. Our foundations are to understand our client’s needs, conduct extensive research and assessment, and thorough planning to account for particular geographic, cultural, economic, and political conditions.

OUR VISION

Our vision is to expand and diversify our portfolio to capitalize on the Group’s solid shareholder base, experienced management teams and highly-qualified employees. No matter the industry or sector, we strive to achieve the highest levels of integrity and professionalism, ensuring that we offer solutions to our customers and partners that match their requirements.

OUR ACTIVITIES

1- REAL ESTATE DEVELOPMENT

With a booming population and increasing GDP per capita, the developing world has long-term needs for housing, commercial facilities and agricultural land, all of which are addressed by 4-S REAL ESTATE diverse portfolio. With a track record of delivering on promises 4-S is a trusted market leader in the Real Estate sector. 4-S Real Estate is a thriving real estate developer with one of the largest real estate portfolios in the Africa. The company possesses extensive long-term experience in real estate development, ranging from large residential and commercial complexes to desert land reclamation

2- AGRICULTURE

THE food and agriculture industry accounts for the larger part of emerging GDP, and employs nearly a third of the third world labor force. 4-S is a pioneer in this dynamic sector with long-standing knowhow and a solid track record that spans well over two decades. It has established itself as a market leader with vertically integrated operations complemented by robust local and export demand.

3- PREFABRICATED HOUSING

4-S ENTERPRISES has invested in affordable housing in developing nations. Our involvement in real estate and construction made the move to prefabricated housing a logical next step. The company is currently completing a project for 1200 prefabricated houses in Kinshasa , DRC.

4- PARKING CENTERS

Parking is the act of stopping and disengaging a vehicle and leaving it unoccupied. Parking on one or both sides of a road is often permitted, though sometimes with restrictions. In developing regions, lack of planning and parking infrastructures cause traffic congestion and unsafe conditions, while the cost in lost man-hours is significant. Few buildings have parking facilities for the convenience of the buildings' users, and 4-S Enterprises offers solutions to local and central governments.

5- ENGINEERING

4-S Engineering Group is a leading player in the trading of machinery and heavy equipment. The Group offers a number of competitive advantages, including its diversity, long experience in the field, a strong professional team and outstanding supply relationships.

6- SOLAR ‘GREEN’ ELECTRICITY

Founded on the principle that alternative or renewable energy is the way to a cleaner planet and ultimately a better quality of life. We believe it should be made available to all, cost-effectively and efficiently Green Power Solutions is the foremost authority for renewable energy resources.

We specialize in renewable energy applications and installations such as solar, wind, and micro-hydro for residential, commercial, and governmental facilities.

7- WATER PURIFICATION

Water purification is the process of removing undesirable chemicals, biological contaminants, suspended solids and gases from water. The goal is to produce water fit for a specific purpose. Most water is disinfected for human consumption (drinking water), but water purification may also be designed for a variety of other purposes, including fulfilling the requirements of medical, pharmacological, chemical and industrial applications.

The methods used include physical processes such as filtration, sedimentation, and distillation; biological processes such as slow sand filters or biologically active carbon, chemical processes such as flocculation and chlorination, and the use of electromagnetic radiation such as ultraviolet light.

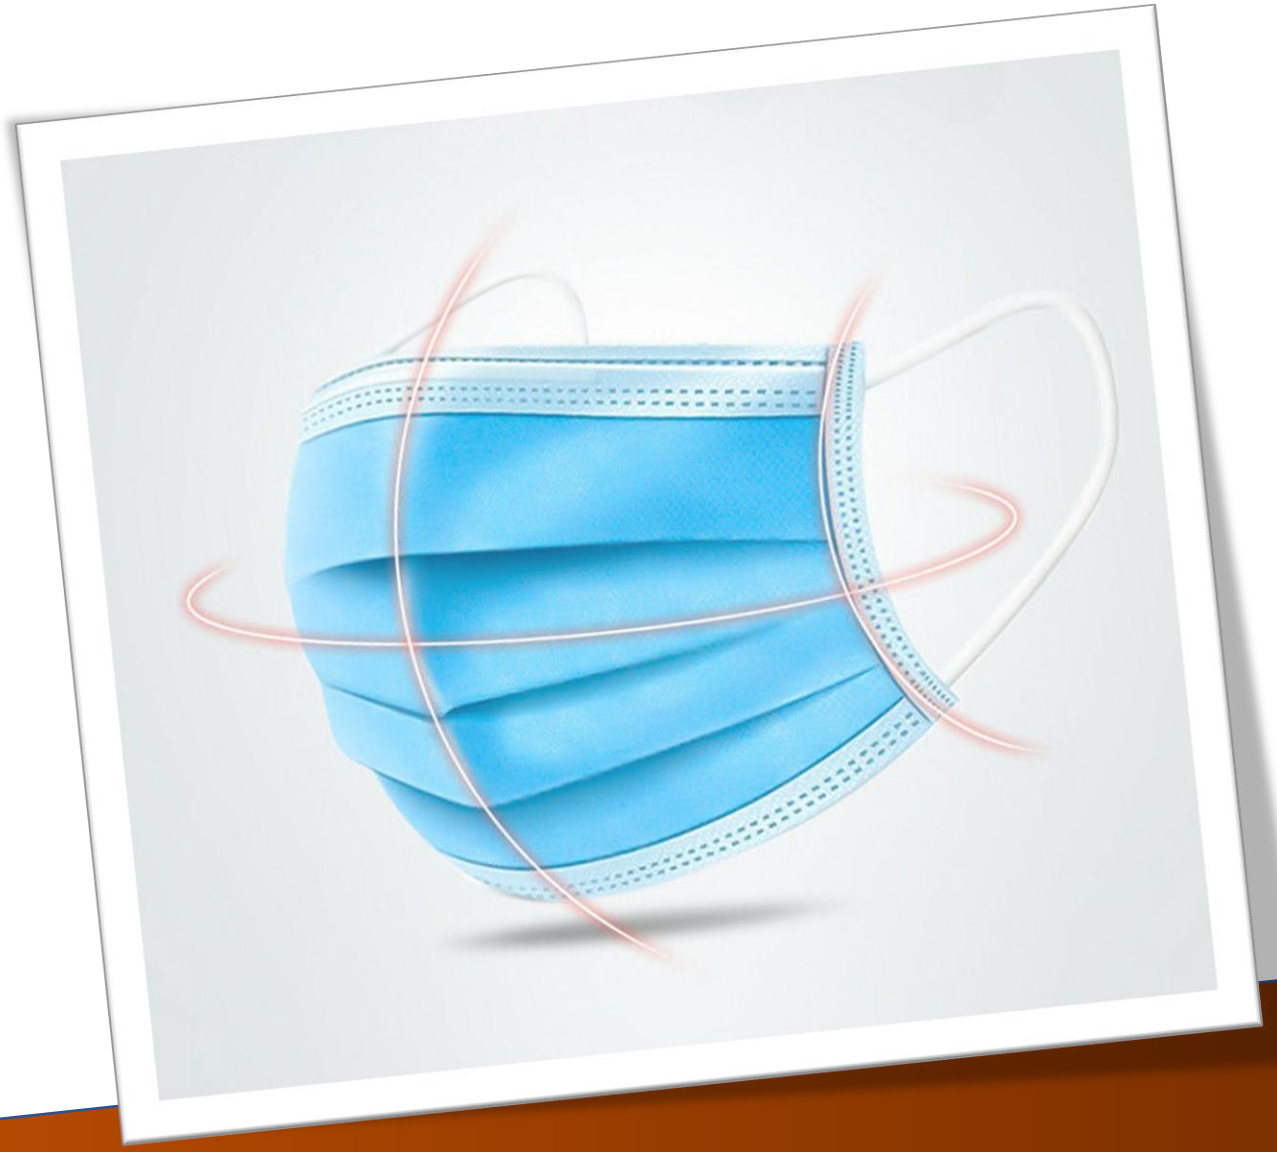

8- ANTI-BACTERIAL AND SURGICAL MASKS

We live in a fast-changing and challenging environment, where we must at all times protect ourselves and our loved ones from airborne hazards to our health. Whether at home or outdoors, in the workplace or at recreation, there is a need for protection against dangers from particles, pollution, microbes and viruses.

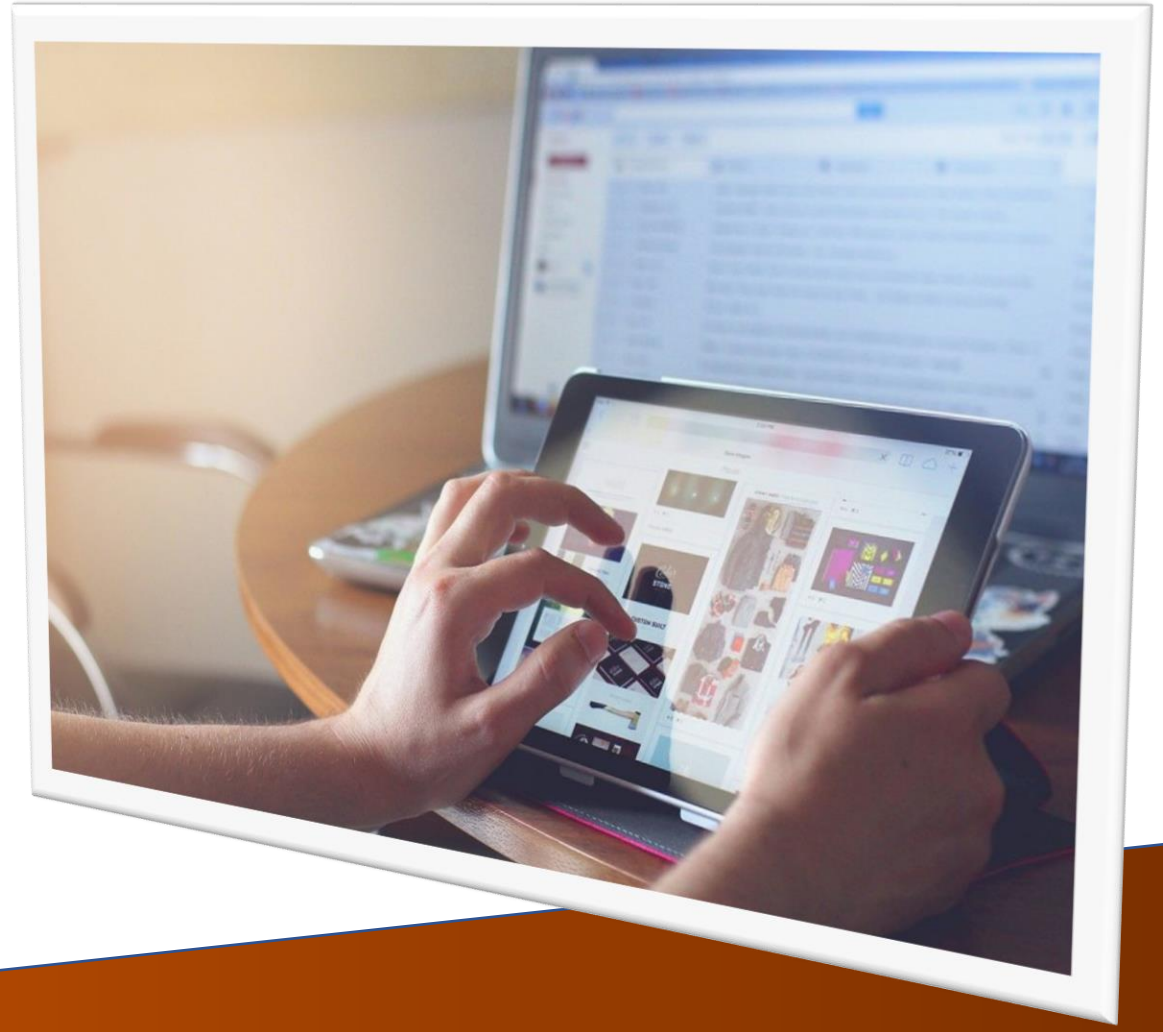

Our range of protective masks have a range of features, making them suitable for any occasion and environment. They are FDA and CE certified and come with a quality guarantee.

9- DIGITAL MEDIA & ADVERTISING

We at 4-S Enterprises provide creative, complete communication and promotional solutions, ensuring your products and services are communicated to the broadest possible target audience using various media in the most effective way to impart your message and develop your business.

Empowered by a multi-dimensional team and advanced technology, we have the expertise and technical know-how to offer complete integrated communication solutions.

10- MARKETING MANAGEMENT SOLUTIONS

The basic characteristic of every business entity in today's scenario of a rapidly developing global marketplace, is that the players must have a thorough knowledge of the global environment in which they operate and its nature, potential, and threats. We help businesses to stabilize and grow their market position, and stay ahead of their competitors by thorough research and careful analysis of market conditions and consumer behavior.
